

ULTRA-REALISTIC TALKING-HEAD VIDEO

Reference-locked *talking head.*

A complete generation spec for a photoreal 16:9 YouTube studio shot: one uploaded image as the sole reference, identity held absolutely fixed, natural two-hand gestures, and phoneme-accurate Tamil lip sync.

FORMAT	TARGET	LENS	LANGUAGE	CAMERA
16:9	3840×2160+	50-70mm FF	Tamil	Static

ABSOLUTE PRIORITY • OVERRIDES EVERYTHING ELSE

Face *1000% the same face.*
Do not alter it even a little bit.

The uploaded image is the sole identity reference. No beautification, no reshaping, no skin-tone shift, no change to hair, hairline, beard or teeth.

ROLE

World-class cinematographer, commercial director, AI video prompt engineer, photorealistic human-motion specialist, and professional YouTube visual director

MISSION

Create an ultra-realistic talking-head video that matches the uploaded reference image as closely as physically possible. The uploaded image is the sole visual reference for the male subject, facial appearance, body proportions, clothing, pose, framing, environment, lighting, camera perspective, depth of field, photographic character, and overall composition.

1

Upload the reference

One 16:9 still of the subject at the desk. It is the only visual source the model should use.

2

Fill the dialogue

Paste the Tamil lines into the two script slots in section 19. Pauses are preset to 1s and 0.5s.

3

Paste the JSON

Copy the full spec from the appendix into your video model, alongside the reference image.

Reference Image

"reference_image"

SOURCE	uploaded_image	USAGE	sole visual and identity reference
PRIORITY	1000 percent preserve the original image context	ASPECT RATIO	16:9
IDENTITY CONSTRAINTS		16	
+ preserve the exact identity and facial appearance of the male subject in the reference image		+ preserve clothing	
+ preserve facial structure		+ preserve pose and hand positioning	
+ preserve face shape		+ preserve the studio environment	
+ preserve natural facial proportions		+ preserve the desk and laptop	
+ preserve natural skin tone		+ preserve the background plant	
+ preserve hairstyle		+ preserve the warm floor lamp	
+ preserve beard and facial hair pattern		+ preserve the dark cinematic background	
+ preserve body proportions		+ do not beautify or alter the person's natural appearance	

02

Subject

"subject"

GENDER	APPEARANCE	AGE APPEARANCE
male	young adult South Indian man	young adult
BODY		
natural realistic male body proportions matching the reference image		

SUBJECT > FACE	
STRUCTURE	SHAPE
match the uploaded reference exactly	match the uploaded reference exactly
EXPRESSION	SKIN
friendly, confident and naturally conversational	natural realistic medium-to-deep warm South Indian skin tone
FACIAL HAIR	BEAUTIFICATION
natural short black beard and moustache matching the reference	none

SUBJECT > HAIR

COLOR	TEXTURE
natural deep black	dense natural black hair with realistic individual strands
STYLE	FINISH
short textured hairstyle matching the reference	natural slightly textured finish

RESTRICTIONS	05
do not change hairstyle	do not create CGI hair
do not add excessive volume	do not change hairline
do not make hair glossy or artificial	

SUBJECT > EYES

APPEARANCE	EXPRESSION
natural dark brown/black eyes	friendly direct engagement with camera
MOVEMENT	
realistic human eye movement and blinking	

SUBJECT > TEETH

APPEARANCE	COLOR
clean natural human teeth	natural off-white
VISIBILITY	
visible naturally while smiling or speaking	

RESTRICTIONS	07
NO braces	NO artificial teeth
NO metal brackets	NO exaggerated Hollywood-white teeth
NO orthodontic wire	NO unnatural perfect smile
NO transparent aligners	

03

Clothing

"clothing"

CLOTHING > TOP	
TYPE	COLOR
plain casual crew-neck sweatshirt	medium dark heather gray
FIT	MATERIAL
relaxed natural fit matching the reference	realistic cotton sweatshirt fabric
TEXTURE	NECKLINE
subtle realistic knitted cotton texture	round crew neckline
SLEEVES	
long sleeves	

CLOTHING > TOP > BRANDING		
TEXT		PLACEMENT
FERRARI		centered across the chest
FONT STYLE		FONT WEIGHT
bold modern geometric sans-serif display lettering		heavy/bold
CASE	COLOR	ALIGNMENT
ALL CAPS	clean white	center aligned
SIZE		TRACKING
large but naturally proportioned to the sweatshirt		slightly expanded letter spacing
STYLE		DISTORTION
flat white printed apparel typography		none
WARPING		
natural subtle fabric curvature only		
RESTRICTION		
preserve the exact visual placement and general appearance of the FERRARI lettering from the reference		

CLOTHING > MICROPHONE	
TYPE	PLACEMENT
small black wireless lavalier microphone	clipped naturally near the upper chest/neckline area
APPEARANCE	VISIBILITY
small realistic professional microphone	clearly visible as in the reference image

RESTRICTIONS

04

- ×

do not enlarge microphone
- ×

do not replace it with headset microphone
- ×

do not remove microphone
- ×

do not add boom microphone

CLOTHING > WRIST ACCESSORIES

WATCH

dark wristwatch visible on the subject's wrist as in the reference

RESTRICTION

preserve general position, scale and appearance

04

Environment

"environment"

LOCATION

dark premium modern indoor content-creation studio or home YouTube studio

VISUAL MATCH

match the uploaded reference image exactly

ENVIRONMENT > FOREGROUND

ENVIRONMENT > FOREGROUND > DESK

TYPE

large clean modern white desk

SURFACE

smooth matte white tabletop

POSITION

occupying the lower foreground of the frame

APPEARANCE

clean premium minimal desk surface

LIGHTING

soft warm/cool studio illumination across the tabletop

ENVIRONMENT > FOREGROUND > LAPTOP

TYPE

dark black/charcoal laptop

POSITION

foreground left side of frame

ORIENTATION

open laptop facing the subject

VISIBILITY

large partial laptop silhouette visible from the lower-left corner

SCREEN

dark/black screen with minimal visible reflections

KEYBOARD

partially visible

MATERIAL

matte dark metal

RESTRICTION

preserve the laptop's approximate size, position and framing

ENVIRONMENT > BACKGROUND

OVERALL

very dark cinematic indoor background

ENVIRONMENT > BACKGROUND > LEFT SIDE

ELEMENT

large leafy indoor plant

POSITION

background left

APPEARANCE

dark green leaves

LIGHTING

soft warm practical illumination

FOCUS

strongly defocused

ENVIRONMENT > BACKGROUND > RIGHT SIDE

ELEMENT

modern floor lamp

POSITION

background right

SHADE

large rectangular warm yellow/orange lampshade

LIGHT

strong warm glowing practical light

STAND

dark wooden or dark brown vertical stand

APPEARANCE

premium modern floor lamp

FOCUS

softly blurred

ENVIRONMENT > BACKGROUND > FURNITURE

ELEMENT

dark brown/charcoal sofa or lounge chair

POSITION

background right and behind subject

APPEARANCE

soft upholstered furniture

FOCUS

heavily defocused

ENVIRONMENT > BACKGROUND > BACKGROUND WALL

COLOR

near-black

APPEARANCE

minimal dark interior wall

TEXTURE

subtle, almost invisible texture

RESTRICTION

do not introduce additional visible decorations

BACKGROUND FOCUS	BACKGROUND DEPTH
strongly blurred	deep cinematic shallow depth of field
BACKGROUND BOKEH	
soft realistic warm practical-light bokeh	

05

Composition

"composition"

ORIENTATION	ASPECT RATIO	RESOLUTION TARGET
horizontal landscape	16:9	3840x2160 or higher
SHOT TYPE	FRAMING	
medium talking-head / medium shot	match the uploaded reference image	
SUBJECT POSITION	HEAD POSITION	
centered horizontally with slight natural compositional balance	upper-center region of frame	
HEADROOM	SHOULDERS	
moderate natural headroom	both shoulders clearly visible	
TORSO	DESK VISIBILITY	
upper torso visible down to approximately the waist/table level	large portion of white desk visible in foreground	
LAPTOP VISIBILITY	CAMERA RELATIONSHIP	
partial laptop visible in lower-left foreground	subject directly faces and speaks toward the camera	

VISUAL PRIORITY

- 01 face
- 02 eyes
- 03 upper body
- 04 natural hand gestures
- 05 overall studio environment

CROPPING	06
do not crop the top of the head	do not remove the laptop from frame
do not crop hands unnecessarily	do not remove the desk
do not crop shoulders	do not alter the overall composition

06

Pose

"pose"

POSITION	BODY ORIENTATION
seated behind the desk	facing directly toward camera
HEAD	SHOULDERS
upright with subtle natural conversational movement	relaxed

POSTURE

natural upright seated posture

EYE CONTACT

direct eye contact with the camera

POSE > ARMS

POSITION

both arms naturally raised in front of the torso as visible in the reference

BEHAVIOR

naturally expressive while explaining something

POSE > HANDS

STARTING POSITION

both hands raised around chest/shoulder level in a natural explanatory gesture

BEHAVIOR

natural conversational hand gestures

STYLE

confident but controlled explanatory gestures

MOVEMENT

- + small open-palm gestures
- + gentle upward movements
- + small outward movements
- + subtle finger emphasis

07

- + natural wrist movement
- + hands moving independently but naturally
- + hands returning toward a relaxed position between statements

07

Hand Gesture Behavior

"hand_gesture_behavior"

CRITICAL PRIORITY

VERY HIGH

INSTRUCTION

The male subject must naturally use both hands while speaking. The hands should already be engaged in a conversational explanatory gesture when the video begins.

STARTING BEHAVIOR

hands begin in a natural raised explanatory position similar to the reference

GESTURE INTENSITY

subtle to moderate

GESTURE FREQUENCY

natural human conversational frequency

SYNCHRONIZATION

gestures must correspond naturally to the dialogue

STYLE

07

+ open palm explanation	+ natural wrist articulation
+ small hand emphasis	+ occasional hand elevation
+ subtle finger movements	+ natural hand settling
+ controlled outward gestures	

RESTRICTIONS

13

* no exaggerated waving	* no sudden hand teleportation
* no dramatic arm movements	* no finger deformation
* no repetitive gestures	* no extra fingers
* no robotic gestures	* no missing fingers
* no frozen hands	* no distorted wrists
* no hands permanently locked together	* no unnatural arm movement
* no hands stuck to body	

08 Camera

"camera"

CAMERA TYPE

professional full-frame mirrorless/cinema camera

ORIENTATION

horizontal landscape

ASPECT RATIO

16:9

PERSPECTIVE

natural professional talking-head perspective

ANGLE

eye-level

CAMERA HEIGHT

approximately aligned with the subject's eye level

DISTANCE

approximately 1.5 to 2.5 meters

CAMERA > LENS

TYPE

portrait-friendly full-frame lens

FOCAL LENGTH

50mm to 70mm full-frame equivalent

CHARACTER

natural cinematic portrait compression without excessive distortion

FOCUS

tack sharp on eyes and face

DEPTH OF FIELD

shallow cinematic depth of field

BACKGROUND BLUR

natural optical bokeh

CAMERA STABILITY

stable professional tripod-mounted camera

MOVEMENT

essentially static talking-head framing

MICRO MOVEMENT

extremely subtle natural camera presence only

RESTRICTIONS

08

✖ no cinematic push-in

✖ no camera rotation

✖ no zoom

✖ no dramatic reframing

✖ no dolly

✖ no handheld shake

✖ no orbit

✖ no FPV movement

09

Optics

"optics"

LOOK

premium professional YouTube studio photography

PERSPECTIVE

natural human perspective

DISTORTION

minimal

SHARPNESS

high optical sharpness on subject

BACKGROUND

smooth optical falloff

BOKEH

natural rounded cinematic bokeh

LENS CHARACTER

premium modern portrait lens

10

Performance

"performance"

OVERALL STYLE

authentic natural male talking-head presentation

PERSONALITY

friendly, confident, knowledgeable, energetic and approachable

DELIVERY

natural spoken presentation directly to camera

ENERGY

moderate and engaging

PERFORMANCE > EXPRESSION

BASELINE

friendly confident expression

SMILE

natural genuine smile when appropriate

EYES

direct camera engagement

EYEBROWS

subtle natural movement

BLINKING

irregular realistic human blinking

FACIAL MOVEMENT natural restrained facial expressions	MOUTH realistic mouth movement synchronized precisely with speech
---	---

PERFORMANCE > BODY LANGUAGE		
OVERALL confident and naturally expressive	HEAD subtle conversational movement	SHOULDERS minor realistic movement
HANDS naturally expressive	AUTHENTICITY must look like a genuine person recording a professional YouTube video	

11

Motion

"motion"

PRIORITY photorealistic natural human motion	BODY mostly stable with subtle natural movement
BREATHING realistic subtle chest and shoulder movement	HEAD small natural conversational movements
EYES natural blinking and eye movement	MOUTH accurate natural speech articulation
HANDS natural conversational gestures beginning immediately	ARMS small realistic movements supporting gestures
HAIR minimal physically consistent movement	CLOTHING subtle physically accurate fabric movement
CAMERA almost completely static professional camera	

12

Lip Sync

"lip_sync"

PRIORITY extremely high	LANGUAGE Tamil
ACCURACY precise Tamil phoneme-level lip synchronization	JAW MOTION realistic human jaw movement
MOUTH SHAPES accurate Tamil articulation	TONGUE MOTION subtle physically realistic movement where visible

FACIAL SYNCHRONIZATION

mouth, jaw, cheeks and facial expressions synchronized naturally with speech

TIMING

speech timing must follow the supplied Tamil dialogue exactly

RESTRICTIONS

05

- no English-style lip movements for Tamil words
 - no delayed lip sync
 - no mouth morphing
- no unnatural jaw movement
 - no rubber-mouth effect

13

Skin Rendering

"skin_rendering"

QUALITY

high-fidelity photorealistic human skin

TEXTURE

07

- natural pores
 - fine facial texture
 - subtle skin imperfections
 - realistic under-eye texture
- natural highlights
 - realistic facial micro-detail
 - natural beard and moustache texture

TONE

natural South Indian skin tone matching the reference

RESTRICTIONS

07

- no skin lightening
 - no skin darkening
 - no artificial smoothing
 - no beauty filter
- no plastic skin
 - no airbrushing
 - no artificial skin polish

14

Lighting

"lighting"

STYLE

premium cinematic warm indoor studio lighting matching the reference

LIGHTING > KEY LIGHT

TYPE	POSITION
large soft diffused key light	front-left/front-center relative to subject
QUALITY	PURPOSE
soft flattering but realistic	illuminate face while preserving natural facial depth

LIGHTING > FILL LIGHT

TYPE	INTENSITY
very subtle soft fill	low
PURPOSE	
retain detail in shadow areas without flattening the face	

LIGHTING > PRACTICAL LIGHTS

RIGHT BACKGROUND	LEFT BACKGROUND
strong warm amber floor lamp	subtle warm illumination around plant
COLOR TEMPERATURE	
approximately 2800K-3200K	

LIGHTING > FACE

ILLUMINATION	HIGHLIGHTS
soft warm-neutral illumination	natural highlights on forehead, cheeks, nose and hair
SHADOWS	
soft realistic facial shadow gradients	

LIGHTING > BACKGROUND

BRIGHTNESS	PURPOSE
significantly darker than subject	create separation between subject and background
BOKEH	
soft warm practical-light bokeh	

CONTRAST	DYNAMIC RANGE
moderate cinematic contrast	high but natural

15

20

Final Visual Target

"final_visual_target"

A highly realistic 16:9 professional YouTube talking-head video of the exact male subject from the uploaded reference, seated behind a clean white desk, wearing a gray FERRARI sweatshirt, speaking directly to the camera with natural expressive hand gestures. A dark laptop occupies the lower-left foreground, while a softly blurred indoor plant sits on the left background and a glowing warm amber floor lamp sits on the right. The room remains predominantly black and dark, creating strong subject separation. The face is sharply focused with realistic skin, beard, hair and eyes, while the background has premium cinematic bokeh. The final result must look like an authentic professionally filmed YouTube video rather than an AI-generated image or CGI render.

FORMAT	QUALITY	VISUAL STYLE
16:9 landscape	4K+ photorealistic	premium cinematic YouTube studio
IDENTITY PRESERVATION	ENVIRONMENT PRESERVATION	MOTION REALISM

  "description": "A highly realistic 16:9 professional YouTube talking-head video of the exact male subject from the uploaded reference, seated behind a clean white desk, wearing a gray FERRARI sweatshirt, speaking directly to the camera with natural expressive hand gestures. A dark laptop occupies the lower-left foreground, while a softly blurred indoor plant sits on the left background and a glowing warm amber floor lamp sits on the right. The room remains predominantly black and dark, creating strong subject separation. The face is sharply focused with realistic skin, beard, hair and eyes, while the background has premium cinematic bokeh. The final result must look like an authentic professionally filmed YouTube video rather than an AI-generated image or CGI render.",
